

## **Staying cool under fire: Handling nerves, glitches & tough questions in presentations.**

### **Stay calm. Stay credible. Stay in control.**

Even the best presentations can be derailed by nerves, technical glitches, unexpected interruptions, or challenging questions. The difference between an average presenter and a confident one isn't perfection — it's preparation.

In this highly practical and interactive webinar, you'll learn how to manage pressure, respond with clarity, and handle tough questions using the structured D8 Question Model. Whether you present to clients, colleagues, or leadership, this session equips you with tools to stay composed when it matters most.

Ideal for professionals, leaders, project managers, and anyone who presents ideas, leads meetings, or speaks under pressure.

You will ...

- ✓ discover practical techniques to manage presentation nerves before and during your talk
- ✓ learn how to handle technical disruptions and unexpected moments with professionalism
- ✓ master the D8 System for handling any type of question confidently
- ✓ practice real-life difficult scenarios in a safe, interactive environment
